

Accommodation in Poznan

As one of the largest Universities in Poland, Adam Mickiewicz University in Poznań offers its students a wide variety of dormitories providing suitable living and studying conditions. Located in different parts of the city the dorms are well communicated with the public transport network, making it easy to move around the city.

- **Hanka Dormitory** - „Hanka” is an iconic building erected in the years 1925-1929 according to a design of Roger Sławski, a famous Polish architect. The Residence with its 153 rooms can host up to 200 guests. There are mainly single rooms in Hanka Residence, though it also includes several double and even the so called „family rooms”. The landmark building situated at Aleja Niepodległości no 26 in Stare Miasto neighbourhood, in the strict centre of Poznań, has undergone a revamping and was put into service on February 2018 after a 2-year renovation. The rivaval proces was awarded the main price in the "Modernization of the Year” contest.
- **Zbyszko & Jagienka Dormitories** - The Dormitories are located in the Winiary and Winogrady neighborhood (ul. Piątkowska no 80) and offer a modern accomodation in newly furnished single or double rooms. All rooms are equipped with a TV-SAT , a free cable internet connection (EduRoam), a refrigerator and a full bathroom. In order to fulfill our environmental commitments and promote a sustainable lifestyle we adopt modern technologies, such as water heated by solar panels.
- **Jowita Dormitory** - The modernist Dormitory, aka “Akumulatory” as its characteristic roof neon sign says, is located in the Jeżyce neighborhood, at Zwierzyniecka Street 7. “Jowita” is a dominant architectural feature of the Kaponiera Roundabout area (one of the main public communication hubs of the city). Jowita Dorm comprises two buildings. The main one is an eleven storey facility with a vast ground floor including a reception desk, Students’ Council Office and a computer room. The guest rooms are situated on the A and 1st floors whereas the other floors (2-10) comprise high-standard students’
